Bio & Concept

Melancholy Circus is a band from the Boston, MA area with two albums, *The Therapy You Need* and *My Love*. As a live band, MC has played all over New England with highlights that include winning a battle of the bands at the historic Middle East nightclub in Cambridge, MA, putting us on the bill to play the New England Punk Goth and Metal Fest (event regrettably cancelled by promoter) at the Palladium in Worcester. We have also played other regional music institutions including the Cantab Lounge (Cambridge), O'Brien's (Allston), Sally O'Briens (Somerville), the Uptown Tavern in Manchester NH and many more. Melancholy Circus' residency at the now regrettably closed Skybar in Somerville Massachusetts due to the Station fire was a fan favorite at the center of supporting the original music scene.

Our second album, *My Love*, has been touted as lyrically thought-provoking and musically dynamic in the same vein as the most creative and diverse rock bands in a mix of the 1970s (Black Sabbath, Led Zeppelin, Uriah Heep, Deep Purple, etc.) and the 1990s (Alice in Chains, Monster Magnet, Type O Negative, The Tea Party, etc.) - *Metronome Magazine*. Imbued with a timeless and unique personal quality for listeners desiring a modern total album experience. At the thematic heart of *My Love* is a deep analysis of the sociopolitical climate of the modern day, frenetically and constantly moving, but toward what?
